MAGAZINE LONDON

Introduction

Magazine London's chosen partners and suppliers are industry leaders in their fields; both credible and reputable. Our chosen partners work well and safely, and provide accurate quotes for working at the venue, saving time and reducing the risk element of your event. The venue's partners and suppliers fall within the following three categories:

Exclusive Partners

Magazine London has two exclusive partners - one for technical production services and one for catering. Buy-out options can be explored for those wishing to use external providers for these elements.

Mandatory Suppliers

Mandatory suppliers must be used for those wishing to book services in their field. They hold an integral understanding of the venue and wider site, including complexities surrounding risk, and the venue rules and guidelines in place to protect the fabric of the building and land. They can offer guidance and advice to ease the event planning process and are extremely solution driven.

Preferred Suppliers

Magazine London's preferred suppliers have been carefully selected and are renowned industry experts. Should you wish to use an external supplier not listed in these fields, please inform your venue contact.

Exclusive Partners

Vibration Design and Production

As a purpose-built venue, Magazine London has been modelled to include an LED intelligent lighting rig, L-Acoustics sound system, as well as an in-house stage; with upgrades and AV packages available on request.

This base package has been pre-installed and designed by the venue's exclusive partner, Vibration Design and Production. With decades of knowledge and service to the events industry, their team are equipped to help elevate any event and have an expert understanding of the venue and its capabilities.
